

FORTIFIED STIMULATE[®] YIELD ENHANCER

PLANT GROWTH PROMOTER

All Crops

Product Overview

Cytokinin (as kinetin) 0.009% | Gibberellic Acid (GA) 0.005%
Auxin (IBA) 0.005% | Auxin (IAA) 0.005%

Fortified Stimulate[®] Yield Enhancer sets a new standard in yield-enhancing plant growth regulators. It is a CFIA registered plant biostimulant that has four growth hormone ingredients in a stable, patented formulation that promotes plant growth and optimizes essential plant functions.

Key Benefits At A Glance

- Drives robust plant growth.
- Balances plant hormones to maximize crop yield and quality.
- Enhances emergence, boosts root growth, and plant vigour.
- Increases yield potential and grain quality.

Rates

A strong start to a strong finish. Fortified Stimulate[®] Yield Enhancer can be used for multiple applications throughout the growing season as a seed treatment, in-furrow, foliar and through irrigation.

- Seed Treatment: 65 mL per 100 lbs of seed.
- In-Furrow: 125 mL per acre.
- Foliar: 125 mL per acre.
