4.2. Most important symptoms and effects	both acute and delayed
Symptoms/injuries	Not expected to present a significant hazard under anticipated conditions of normal use. This product contains beneficial microorganisms. Novozymes exclusively uses non-pathogenic beneficial microorganisms that are considered to be non-allergenic, non-irritating and non-sensitizing when used as directed. Exposure to very high levels of airborne microbial spores may result in very rare respiratory impairments or cause an allergic reaction in sensitized individuals. This product may cause adverse effects to individuals allergic to molds and/or fungi and should not be used by immunocompromised and/or immunosuppressed individuals.
Symptoms/injuries after inhalation	 Possible respiratory damage following repeated or prolonged inhalation.
Symptoms/injuries after eye contact	Contact may cause eye irritation.
Symptoms/injuries after ingestion	Small amounts swallowed incidental to industrial handling are not likely to cause injury. On ingestion in large quantities: stomach pain. Ingestion of used product may cause abdominal discomfort.
