

F-420G

20% Zinc

Granular Micronutrient

Zn (20%) S (8%)

A homogeneous grade of zinc sulphate and zinc oxide with a low analysis to insure a better distribution throughout the fertilizer blend and in the field.

- Optimum water solubility provides excellent plant availability and compatibility with all fertilizer blends.
- Product analysis of 20% zinc will supply initial amount of zinc sulphate for immediate needs, and zinc oxide for soil buildup and extended plant needs.

Zn
ZINC

- Zinc is essential in a wide range of plant functions as an enzyme co-factor, in protein synthesis and protein structure, hormone regulation, early root development, energy production and is key for seed formation.

Application:

- Normal bulk blending procedures.
- This product is to be used in NPK blended fertilizer for soil application.
- Apply in the seed row or in close proximity to the seed row.
- Normally apply at a minimum of 2 lbs of actual zinc, 10 lbs of product per acre.
- 5 lbs of product = 1 lb actual.
