

Nitrogen Stabilizer

Formulated for the soil where leaching is the primary concern. Protects against surface losses for a short time.

Offers protection against nitrogen loss caused by:

- Volatilization
- Denitrification
- Leaching

NEON nitrogen stabilizers are liquid products that are added to:

- UAN to become a homogeneous liquid solution.
 - Rate: 2 L /MT
- UREA to evenly coat and penetrate each granule to the core.
 - Rate: 4 L /MT
- Used in early spring & fall applications of UREA or UAN.
- 5% NBPT & 30% DCD.
- Applied pre-plant, side-dressed or used for surface applications.

Benefits of NexusBioAg's Nitrogen Stabilizers

- Select the right stabilizer to protect nitrogen against loss.
- Take advantage of fall applications of nitrogen.
- Insure that your crop has available nitrogen longer into the growing season for optimal yields and proteins.
- Using a stabilizer is insurance to protect your valuable nitrogen investment.
- We don't know what the growing season will bring, hedge your investment with the proper nitrogen stabilizer.
